

Paediatrics and Child Health

Advertising Rates and Data 2007

THE JOURNAL

Essential for candidates sitting Membership of the Royal College Paediatrics and Child Health and Diploma in Child Health, Paediatrics and Child Health provides:

- Educational and up-to-date material for MRCPCH/DCH candidates and practitioners
- Reviews on all aspects of hospital/community paediatrics and neonatology
- Concise and practical updates on delivery of care, investigations and innovations
- Technical procedures

Paediatrics and Child Health provides an authoritative collection of educational reviews designed to keep readers up to speed in paediatrics and child health. Reviews are an educational source for both qualified paediatricians and candidates preparing for higher professional qualifications.

ADVERTISING IN THE JOURNAL

- *Paediatrics and Child Health* is available on subscription only – 1,235 specialists who are sufficiently motivated to pay for their copies.
- Provides an editorially-related environment for your advertisement.
- Delivers extended exposure of your message for as long as 3 years as a result of the journal's add-on format. Subscribers receive binders to keep their copies accessible and your message is reinforced each time they refer to their 'textbook'.

Copy Requirements

Space charges are based on advertisers supplying one of the following:

- pdf with printer's marks (preferred format)
- colour separated screened composite positives for four colour, process and special colours
- composite film positive for black and white
- composite film positives for black and process colour

All film to be supplied right-reading emulsion side down and accompanied by progressive proofs, proofed if possible on stock similar to that used in the publication.

Proofs should be in the sequence of cyan, magenta, yellow and black to acceptable offset printing ink densities.

Conversion to litho film will be charged at cost plus 10%.

All films to be supplied to FIPP specifications, for the attention of the Production Department.

Why advertise in Paediatrics and Child health?

Enjoy access to your key audience through the pages of this highly-respected and established subscription journal.

The subscription nature of the journal's circulation ensures a high level of committed readership.

Influence your key audience via article reprints and sponsorship opportunities.

It is possible to sponsor a particular issue of this journal and/or take additional copies for marketing purposes at highly competitive rates.

In addition, we can reprint selected articles, either individually or several together, forming a composite publication on a subject of your choosing.
